

## FOREIGN.

**Terrible Accident on the Great Eastern Railway of England.**

**Twenty Persons Killed Outright and Fifty Wounded.**

**Proposed Settlement of the Formosa Dispute by Arbitration.**

**Don Carlos Chary of Promises to His Supporters.**

**MacMahon Again Swinging Around the French Circle.**

**GREAT BRITAIN.**

**London, Sept. 11.—A terrific collision occurred this morning on the Great Eastern Railway, near Norwich. Fifteen persons were instantly killed, and thirty injured, some of whom, it is feared, fatally.**

**LONDON.—Twenty persons were killed outright by the collision already reported on the Great Eastern Railway, near Norwich, and fifty were wounded, some very badly. The railway line is completely blocked by the debris of the wrecked train.**

**London, Sept. 12.—By recent agreement of the Atlantic steamship companies at Liverpool, the uniform rate of steerage passage was fixed at \$25 for passage and freight between Liverpool and Boston. Passengers intending to land at New York were thus enabled to travel in fast boats at slow-hour fare by taking tickets for Boston. The slow lines have consequently withdrawn from the American and competition has re-commenced. Steerage passengers are now taken on some lines at three guineas.**

**CHINA AND JAPAN.**

**SHANGHAI, Sept. 11.—The Ambassador from Japan has arrived here. It is generally considered that a rapid solution will be effected by the difficulties with regard to Formosa. It is reported that the question will be submitted for arbitration to the President of the United States; that there are 2,250,000 horses in Minnesota, and the Ambassador was not given a new bond, and served several months. In neither case had the State**

**SPAIN.**

**New York, Sept. 11.—Don Carlos has been again interviewed, and, speaking of the prospect that he could hold out to the Spanish people, he said: "I would like to promise Spain a great deal in the way of a liberal and progressive Government, but I am not sure of being able to fulfill any such promises. Things that seem easy now may prove difficult or impossible when I come to the throne, but the word of a King is sacred, and times are too uncertain. The circumstances under which I may arrive to power are too various, and far beyond all human foresight for that word to be lightly given." He also said that he intended to make a personal tour of Spain, and, if possible, to go to the famous steed of the famous of Lyons memory. French agricultural enterprises, as the field of opportunity, would indicate, we rise to meet the emergency by crop without delay. If the crop, which may escape pinching; if the crop, which may be offset by the oats failure. Any crop to do well would be to experiment on horse-flesh. The epicure will have no good excuse for popularity at the present.**

**published statistics show that 700,000 of the most part natives of Prussia, emigrated from Hamburg and Bremen during years. The whole country is up at a stop to this wholesale exodus, particularly agricultural laborers, are too few to supply the demand. A few of the young men of service in the German army has not their having the country.**

**NOTES AND OPINION.**

**PARIS, Sept. 11.—Senior Vars Armijo, the newly-appointed Spanish Ambassador, presented his credentials to-day to President MacMahon. He said he hoped the restoration of relations would contribute to the termination of the war in the Spanish provinces adjacent to France. The President, in reply, expressed wishes for the prosperity of Spain, and promised friendly cooperation.**

**Paris, Sept. 11.—President MacMahon has resumed his tour. He arrived at Lille to-day, accompanied by Gen. de Cussey. The city is illuminated to-night. The President will proceed to Arras, Amiens, and St. Quentin. At the latter he will attend military maneuvers, and inspect the troops of the guard. He will be received before he resume to Paris.**

**back pay?" Why, he's hired to one of the things the Republicans voted on, and he's got to be paid.**

**INDIA.**

**GENEVA, Sept. 11.—The International Law Association, which has been in session this week, adjourned yesterday with a public meeting, at which over 5,000 persons were present. Dr. D. Field, of New York, made a speech explaining the objects of the Association, which was to obviate the necessity of war.**

**HICKORY and PERE HYACINTHE also addressed the meeting.**

**HICKORY.—He has held its sittings in the same rooms which were occupied by the Board of Arbitration on the Alabama claims. After adjournment, Count Sclopis telegraphed his acceptance of the Presidency of the Association.**

**INDIA.**

**London, Sept. 12—5:30 a.m.—A special dispatch to the Times from Calcutta says all apprehensions of a second year of famine are gone. There is a partial failure of the crops in some districts, but no greater than in ordinary years.**

**RELIGIOUS.**

**The Conference at Kafamazoo, Mich. Special Dispatch to The Chicago Tribune.**

**KALAMAZOO, Mich., Sept. 11.—There was a large attendance at the Conference to-day. The Treasurer of the missionary fund reported the contributions during the past year, from ten districts, to be \$6,418.66. Forty charges are reported. When all in it is believed the contributions will not fall below \$8,000. The reports of the Presiding Elders of Pentwater and Grand Traverse districts are very interesting. The Committee to try the Rev. William H. Bassett, in the Oberlin Professor Monroe's party to the disgruntled service Republicans who pretend not to discern a reason for re-election, is credulous in opinion that "The Republicans labored."**

**INDIA.**

**HUNTINGTON, Ind.**

Special Dispatch to The Chicago Tribune.
PHILADELPHIA, Sept. 11.—In the Methodist Church, to-day, the following were examined and admitted to the Conference: Mrs. Danielson; David Shanton, Stephen R. Farwell, Mrs. Charles Vice-Presidents; and Mrs. Lathrop Secretary. The Preachers' Savings-Fund Society contributed \$100 to the relief of the G. S. Gilmer, of Lyons. The officers of the latter society were re-elected. The Committee in charge of secret session over the wickedness of another, Elihu, of Moshonville. This evening was held a meeting of the Christian Extension Society. Addresses were made by the Rev. H. P. Henderson, Dr. McCarthy, and C. C. McCabe.

**The Methodist Conference at Des Moines, Iowa.**

**Special Dispatch to The Chicago Tribune.**

**MIDDLEBURY, N. Y., Sept. 11.—The engine-house at Middlebury, on the Erie Railroad, was burned last night, as also was the engine of a construction-train. The loss is \$30,000.**

**LATE LOCAL ITEMS.**

**The Coroner's Jury in the case of Michael Madigan, who died Thursday from injuries received at the Bessemer steel-works of the Union Rolling Mill Company, in Bridgeport, rendered a verdict of manslaughter, and recommended that he be expelled from the Church. The report was unanimously confirmed by the Conventions of the Presiding Elders and Deacons who were present. The letter was submitted to the Bishop. Addresses were delivered before the different societies by Dr. Dashiell, T. M. March, Dr. Freeman, the Rev. D. Cooley, M. G. C. Lathrop, and others. L. H. Pierce was elected President of the Ladies' Aid, and Mrs. Christian Union; A. A. Knapp and Mrs. Barnes Vice-Presidents; and Mrs. Lathrop Secretary. The Preachers' Savings-Fund Society contributed \$100 to the relief of the G. S. Gilmer, of Lyons. The officers of the latter society were re-elected. The Committee in charge of secret session over the wickedness of another, Elihu, of Moshonville. This evening was held a meeting of the Christian Extension Society. Addresses were made by the Rev. H. P. Henderson, Dr. McCarthy, and C. C. McCabe.**

**The Methodist Conference at Des Moines, Iowa.**

**Special Dispatch to The Chicago Tribune.**

**NEW YORK, Sept. 11.—The Eccllesiastical Commission received this evening Mr. Jay Cooke's bill in equity, was presented on behalf of Jay Cooke & Co. and the firm of Jay Cooke & Son, v. N. G. Taylor and Son, and the firm of Jay Cooke & Co., claiming a balance of \$22,679 owing the London house under letters of credit. A bill was also presented in behalf of Oliver H. Taft, a broker of Jay Cooke & Co.,**

**for \$4,000, reciting that in June last the Trustee announced funds on hand to pay 5, and perhaps 7 per cent dividend, but in August the Trustee sent to him that the stock class of the First National Bank of Washington, and rendered it impossible to pay any dividend at present; therefore he prayed that the Trustee be directed to account fully of the bank's estate, out of all payments to, and disbursements by, him, and then estimate into his hands. The Court ordered the Register to appoint a public meeting under the twenty-seventh and twenty-eighth sections of the act of 1857.**

## THE EXPOSITION.

**General Notes of the Display.**

Yesterday showed a very great improvement in the appearance of the Exposition in general. The crowd was not quite so great, perhaps, although the building was comfortably well filled, but those who were there showed their full appreciation of the sights. The various show-cases and stands are rapidly filling up, and the vacant, unsatisfactory impression created by a tour through the building Wednesday has given place to a feeling of agreeable surprise. Taking a tour

of the building, after leaving the art-gallery, one of the first things that attracts attention is a machine shop, a long communication from Marshal Bazaine, addressed to James Gordon Bennett, thanking the Herald in particular, and American journalists in general, for the strong marks of sympathy he has received at the hands of the American journals. He says, he has always found his best defenders and most impartial critics. He reviews the circumstances of his trial and conviction, and says he was made the expiatory victim of the faults of the French army and nation. He says the judgment against him is invalid, because of the composition of the Court, he not having been tried by a jury of his peers. He says: "I have had two supporters whose authority and impartiality made me believe in their arguments, but they did not allow me to be immolated in order to appear a certain coterie and public-spirited. These were the Emperor, and that was not set aside and replaced by Mme. Beauchamp, who was my former commander. It is true that I was tried by a court martial, but I was not tried by a jury of my peers."

**THE NORTHERN END**

## MONEY AND COMMERCE.

## MONETARY.

FRIDAY EVENING, Sept. 11.

The dullness of yesterday seems to prove to-day. Most of the bankers, with the exception of some little routine counter business, report almost nothing doing. We hear to-day that some of the country banks in the wheat districts have asked and received moderate discounts to carry the farmers who refuse to sell their wheat at ruling prices. About as much currency is sent in from the country as goes out, and generally for the season business at the banks is about a stand-still.

Perhaps the large number of fairs now occurring all over the country may have something to do with the change from the reasonable activity noticed in the early part of the week. Bankers, merchants, and their customers are all engaged inspecting farm-products, and hence they cantributed nothing to the ordinary volume of business.

The weather has been unusually fine for such purposes, and hence the fair have doubtless absorbed the attention of all classes in the country. In our city the great Industrial Exposition is now open, and doubtless our country friends, after feasting their eyes on fine stock and the varied products of their own industry, will be gratified by the exhibits which have been about, and cultivate their taste by studying our magnificent collection of splendid pictures. It will pay them to do so.

Bankers at the banks get all the money they want—good customers, of course, we mean—10 per cent. Money very abundant. On call, with cash collateral, 56.8 per cent are the quotations. Street rates \$6.13. Little doing.

Now the money market is steady at about 50 cents discount per \$100. We hear of one rate at 75 cents.

## LOCAL STOCK RATES.

The banking-house of Preston, Keen & Co., 109 Washington street, furnish the following quotations:

## LATER.

New York, Sept. 11.—Treasury disbursements, \$35,000.

Dry goods imports, \$2,339,557.

Money, 26.2%5; prime discounts, 5.6%7 for short and long.

Sterling heavy at the morning's decline—483@.

Gold ranged at 109.10, and 483@ for sight.

For full-weight pork country packers tight.

For full-weight pork country packers tight.

They can't be wrong; Chicago is in the right.

It is due to the parties, however, to say that the opposition to the bill is not to come from the packers, but from the repackers.

The gentry in New York and New Orleans who have been in the habit of taking up the overweight and counting it as a present, may do so again, but it is the latter who will be most inclined to do so.

The death of H. S. Eaton, a member of the Board of Trade, was announced on "Change to-day," and appropriate resolutions adopted in respect to his memory.

The following resolution was read on "Change to-day," offered by T. T. Gurney, and laid over for ten days, under the rule. It is understood to be a winter at the new port, and will probably meet with strong opposition:

"Resolved, That we, the members of this association, in view of the passage of this resolution, any kind of grain, as is specified of the grade sold, whether designated as 'No. 1' or 'grade (20)' or 'second grade,' be considered a proper and judicious one on account of its quality."

The action of the Louisville Convention in admitting the Chicago standard for packing meat was a wonderful difference in the sense. It did so in this issue of this morning, in which the Canadian barley-pop was reported as "yield one-third." It should have one-third over;

meat which would be more than an average crop.

"Resolved, That we, the members of this association, in view of the passage of this resolution, any kind of grain, as is specified of the grade sold, whether designated as 'No. 1' or 'grade (20)' or 'second grade,' be considered a proper and judicious one on account of its quality."

The action of the Louisville Convention in admitting the Chicago standard for packing meat was a wonderful difference in the sense. It did so in this issue of this morning, in which the Canadian barley-pop was reported as "yield one-third." It should have one-third over;

meat which would be more than an average crop.

The death of H. S. Eaton, a member of the Board of Trade, was announced on "Change to-day," and appropriate resolutions adopted in respect to his memory.

The following resolution was read on "Change to-day," offered by T. T. Gurney, and laid over for ten days, under the rule. It is understood to be a winter at the new port, and will probably meet with strong opposition:

## THE DIAMOND BRACELET.

BY THE AUTHOR OF "EAST LYNNE."

The stately rooms of one of the finest houses in London were open for the reception of evening guests. Wax-lights, looking immeasurable when reflected from the mirrors, shed their rays on the gilded decorations, on the fine paintings, and on the gorgeous dresses of the ladies; the entrancing strains of the band invited to the dance, and the rare exotics emitted a sweet perfume. It was the West-End residence of a famed and wealthy city merchant of lofty standing. His young wife was an Earl's daughter, and the admission to the house of Mr. and Mrs. Adela Netherleigh was denied to all but the most select.

"There is a girl," almost screamed a pretty-looking girl. By some mischance during dancing, her partner contrived to put his foot upon her toe, which drew, and the bottom of the skirt was torn half off.

"Quite impossible that I can finish the quadrille," quoth she to him, half in amusement, half provoked at the misfortune. "You must find another partner, while I go and get this repaired."

It was Lady Frances Chenevix. By some neglect the lady's maid was not attending upstairs, and Frances, in her impatience, ran down to the housekeeper's parlor. The sister of Lady Adela, she was quite at home in the house. She had gathered the damaged dress up on her arm, and her white silk petticoat fell in rich folds around her.

"Just look what an object that stupid—" And there stopped the young lady. For, instead of the housekeeper, nobody was in the room but a gentleman: a tall, handsome man. She looked with thunderstruck, and then slowly advanced and stared at him, as if not believing her own eyes.

"My name is Gerard. Well, sir, just as you have expected me to meet the dame here."

"How are you, Lady Frances?" he said, holding out his hand with hesitation.

"Lady Frances! I am much obliged to you for your trouble, but I have no time to speak with you." Mr. Hope, for his polite inquiry, was rewarded by a smile.

"I suppose Frances has been telling you," observed Lady Sarah to her brother-in-law. "I am positive to you that it is my own bracelet."

"I recollect it perfectly," the bracelet struck me as a diamond," he said.

"I recollect it perfectly," the bracelet struck me as a diamond," he said.

"I recollect it perfectly," the bracelet struck me as a diamond," he said.

"I recollect it perfectly," the bracelet struck me as a diamond," he said.

## CITIZENS' ASSOCIATION.

Meeting of the Committee of One Hundred.

Address of Franklin MacVeagh—Policy and Means of the Association.

Reformation of City Government, Prevention of Fires, Etc.

Resolution of A. C. Hesing that They Aid in the Prosecution of D. A. Gage and His Bonds-men.

It Is Adopted with Slight Alteration.

A meeting of the Central Committee of One Hundred, of the Citizens' Association, was held yesterday evening at Room 24 Merchants' Building. There were present Gen. Webster, Gen. Cheever, E. A. Storrs, Manel Talbot, R. T. Crane, G. B. Brown, L. Z. Letter, John Forsyth, Peter Schubert, H. G. Pulling, Thomas Mackin, C. M. Henderson, Gen. F. S. Sherman, Franklin Blodget, W. B. Estey, A. C. Hesing, Gurdon R. Hubbard, W. E. Doggett, Michael Fitzgerald, C. Hinck, George Hitchcock, Henry Birrell, George A. McLain, P. R. Dickinson.

The members of the Committee arrived slowly, and it was not until half-past 8 o'clock that C. M. Henderson called the meeting to order, and nominated W. E. Doggett as Chairman. The motion was passed, and E. A. Storrs was chosen Secretary.

The Chairman called for the reading of the minutes of the last meeting of the Committee, and Mr. Storrs complied. The minutes were approved.

PRESIDENT MACVEAGH'S ADDRESS.

The President of the Association, Mr. Frank MacVeagh, was called upon for an expression of his views. Mr. MacVeagh had been directed by the Executive Committee to present a statement as to their work. In accordance with that request, he read the following address:

GENTLEMEN: The Citizens' Association was organized by the friends of the people of Chicago, such as the Anna, Taylor, and lastly the Martha—all of which expressed and certified to that grave.

This present living and ruined grape that might be, is not the best good it might be; it is but the wolf and the boy repeated in a new

grape-growers deny that we can be of European with our native others, as stoutly affirm that the cross a cross. There will, of course, be a smooth leaf; but it is possible a bruska blood shows more markedly.

I do not intend to be drawn into a discussion as to the facts, not theories, that will be in the thin, melius skin and small new grapes are as unlike the Lorraine, Vines, and Extensive. We shall have the Vines after it has been raised in vines from Maine to the mountains, and has named it.

The name that should be giving the grape can make as good from home as it has thus far.

A vigorous of 1,000 vines of the forty varieties, in small lots. The Concord is the only one that value thus far, and save the new forty sorts must go to the market. It is now sixty varieties tested, the Concord one of value. Ten vines, so much is of no value here. I have sold a number of fruit this year from 200 vines, and the result is that this is the first attempt at raising a crop. It is eighteen days in Concord, but even then it is much better than the Hartford. It is now raised in vines, and one Concord. We may have the first, but for this part of the State, and the latter.

But not yet the European and American does not produce a crop—it is a promising one, but, as some an accidental cross—and, after this crosses may be looked for.

SUGAR CRAB-APPLES. In our native crab-apple and the hog botanists don't know; and yet some of the diets of the day are reviving.

CROSSING, etc., etc., and then some by hybridizing, and there is the same law of change and in grapes, plums, and the like.

FIVE YEARS SINCE THE question is in Illinois? As answered is in the Concord, and to-day grapes are about 1 cent. Louis at 2 cents. There is no

and that the Concord has a touch of the wild in it, making the smooth leaf of the latest new grape to the tippe, a leafy tenderer of it value in this part and nothing short of a thick, ripe, juicy, delicious fruit.

THE SEASIDE IN ITS FAVOR. The uniform in size grown on this and 10 to 15 cents more a bushel than the purple and late pale-walls are about equal to the labor who has a gaw-well, and the vine has been digging down to the gas coming up from 20 feet below, and is set and light his house with a lamp of downy oil. The temperature is down, 500 feet, and though the drill has passed the coal-shale of the car.

The supply of water is a great source of the surface, and coal or a flowing farm. Farm-wells of 11 inches 2 feet long, are being put in 25 to \$1.50 per foot. This is a great popular. They are

framed to 65 cents, but there is a large amount of water.

THE GRAPES ARE THE Radical, and the grain and heavy dewy leaves, and the purple and late pale-walls are about equal to the labor who has a gaw-well, and the vine has been digging down to the gas coming up from 20 feet below, and is set and light his house with a lamp of downy oil. The temperature is down, 500 feet, and though the drill has passed the coal-shale of the car.

THE SEASIDE IN ITS FAVOR. The uniform in size grown on this and 10 to 15 cents more a bushel than the purple and late pale-walls are about equal to the labor who has a gaw-well, and the vine has been digging down to the gas coming up from 20 feet below, and is set and light his house with a lamp of downy oil. The temperature is down, 500 feet, and though the drill has passed the coal-shale of the car.

The supply of water is a great source of the surface, and coal or a flowing farm. Farm-wells of 11 inches 2 feet long, are being put in 25 to \$1.50 per foot. This is a great popular. They are

framed to 65 cents, but there is a large amount of water.
